Green bars indicate breeding activity in based on monitoring conducted by the Montgomery County Department of Environmental Protection, Montgomery Parks, the United States Geological Survey North American Amphibian Monitoring Program (USGS NAAMP), and AmphibiaWeb (amphibiaweb.org). The blue border marks the FrogWatch USA monitoring season of February through August. Species with an asterisk (*) have been identified as a Species of Greatest Conservation Need (SCGN) in the 2015 Maryland State Wildlife Action Plan (dnr.maryland.gov/wildlife/Pages/plants_wildlife/SWAP_home.aspx).
